PROFESSIONAL SUMMARY

Full-Stack Developer (5+ yrs) building production React, Next.js, Node.js, NestJS, and TypeScript apps across 12+ launches—specializing in e-commerce platforms, RBAC dashboards, and scalable REST APIs.

WORK EXPERIENCE

Freelance (Self-Employed) — *Full-Stack Developer*

Mar 2026 – Present | Remote | javaddev.ir

- Built and launched end-to-end B2C/B2B e-commerce platforms, custom admin panels, and corporate web apps using Next.js, NestJS, TypeScript, and PostgreSQL.
- Engineered REST APIs, multi-variant product catalogs, inquiry workflows, and technical SEO foundations for client platforms (see Selected Projects, p. 2).
- Owned full delivery lifecycles from system architecture and responsive UI to Dockerized production deployments and ongoing maintenance.

DaneshKar — *Full-Stack Developer*

Mar 2025 – Mar 2026 | Tehran, Iran — Hybrid | daneshkar.net · LinkedIn

- Built and maintained scalable RBAC admin dashboards and internal systems for 5,000+ active users, reducing load times by 40%.
- Standardized frontend-backend integration workflows, cutting cross-feature defects by 35%.
- Mentored 50+ students on production-style React and Node.js full-stack projects.

Duniar — *Front-End Developer (Full-Stack Collaboration)*

Oct 2023 – Feb 2025 | Tehran, Iran — Remote | duniar.ir · LinkedIn

- Shipped production features for Talent Pool and Puzzle Platform (15,000+ users), lifting workflow efficiency by 25% via REST API and state optimization.
- Partnered with 2 backend engineers to align UI architecture with APIs and data models.
- Built 40+ reusable UI components and feature modules to speed up release cycles.

Arman Zamin — *Front-End Developer (Full-Stack Contributor)*

Sep 2021 – Sep 2023 | Tehran, Iran — On-site | armanzamin.ir · LinkedIn

- Built scalable frontend modules and dashboards for Shahryar and Mersad Smart City platforms (12+ municipal services), speeding up reporting by 30%.
- Engineered real-time taxi-hailing features—live tracking, fare estimation, and maps—for 10,000+ daily requests.
- Contributed to frontend architecture and API patterns across 6 core system integrations.

TECHNICAL SKILLS

- **Frontend:** React, Next.js (App Router), TypeScript, React Native,Tailwind CSS,
- **Backend:** Node.js, Express, NestJS, REST APIs, AuthN/AuthZ, RBAC
- **Databases:** PostgreSQL, MongoDB
- **State & Data:** React Query, Zustand, Redux Toolkit
- **Validation & Forms:** Zod, Yup
- **Testing:** Jest, Vitest, Cypress
- **Architecture & DevOps:** Clean Architecture, WebSocket, PWA, Git, Docker Fundamentals
- **Domains:** E-Commerce, Admin Panels, Dashboards, Marketplaces, Real-Time Systems

EDUCATION

Shahid Beheshti University

Undergraduate Minor in IT Engineering

2025 – 2026

Shahid Beheshti University

BSc in Economics

2023 – 2026

University of Tehran

Coursework in Public Administration

2020 – 2023

SAMPAD

High School Diploma in Mathematics & Physics

2017 – 2020

LANGUAGES

- **Persian:** Native
- **English:** B2
- **Turkish (Istanbul Turkish):** C1

FREELANCE & SELECTED PROJECTS

Parsi Chemical — *Chemical Products E-Commerce Platform* | parsichemical.com

Tech Stack: Next.js, NestJS, TypeScript, PostgreSQL, Tailwind CSS | 2026

- Built a full-stack B2C/B2B e-commerce store and admin dashboard for 3,000+ chemical products and technical specs.
- Developed backend APIs and admin tools for inventory updates, content publishing, and order workflows.
- Delivered a responsive storefront structured for clear presentation of specialized chemical catalog data.

ViraCo Sanat — *Industrial Products Web Platform* | viracosanat.com

Tech Stack: Next.js, Node.js, Express, MongoDB, Tailwind CSS | 2026

- Built a full-stack industrial product catalog and corporate site with an integrated admin panel.
- Developed APIs and responsive quotation workflows, streamlining customer inquiries by 35%.
- Structured the architecture for straightforward store maintenance and future catalog expansion.

Neshat Rokh — *Cosmetics & Beauty E-Commerce Platform* | neshatrokh.com

Tech Stack: Next.js, NestJS, TypeScript, PostgreSQL, Redis, Tailwind CSS | 2025

- Architected an e-commerce platform managing 27,000+ products across 1,500+ brands with high-volume catalog search.
- Built B2B wholesale workflows, AI product recommendations, and gamified loyalty modules, boosting engagement by 28%.
- Optimized rendering and technical SEO, improving page load speed and organic visibility by 45%.

Loni Group — *Kitchen & Wood Products Showcase Platform* | lonigroup.ir

Tech Stack: Next.js, Node.js, TypeScript, PostgreSQL, Tailwind CSS | 2025

- Built a responsive catalog showcasing custom kitchen, cabinetry, and wood product collections.
- Developed APIs and admin tools for galleries, categories, and inquiries, generating 150+ monthly leads.
- Crafted a mobile-first UI focused on fast media loading and conversion-driven lead capture.

Padash — *Investment & Financial Services Platform* | padash.ir

Tech Stack: React, Next.js, TypeScript, REST APIs, MUI | 2024

- Built responsive web interfaces and API integrations for a financial services platform serving 20,000+ users.
- Developed data-driven views, structured information architecture, and validated user forms.
- Applied reusable component patterns and performance optimizations for production stability.
